

适用范围: 广泛用于包装、纸箱、印刷、造纸、食品、垃圾回收等行业的压缩打包。

Scope: Widely used for packing industry, cardboard boxes industry, printing industry, paper-making industry, foods industry, garbage recycle industry, etc.

产品说明 PRODUCT INTRODUCTION

左右收口方式, 通过油缸自动收紧与放松。
左右压缩及推包, 包块长度可调节, 连续出包, 提高工作效率。
PLC程序, 电动按钮控制, 操作简单, 自带加料检测, 自动压缩。
打包长度任意设定, 且设有捆包提醒装置。
三相电压, 安全联锁, 操作简单, 可配风管或输送线上料, 效率更高。

Way of two-sided shrinking mouth, tighten and relaxation by cylinder automatically.
Left-right compressing and pushing bale out, the length of bale can be adjusted, pushing out bale continuously, improving work efficiency.
PLC control system, operated by electrical buttons, with feeding detection, can compress the material automatically.
Bale length can be adjust packaging reminder device.
It has three phase voltage and safety interlock device, simple operation, can connect with air-blower or conveyor line to feed material directly, improve working efficiency.
