

## JPE-50/100

### 产品说明 PRODUCT INTRODUCTION

JPE系列EPS熔化回收机，用于发泡聚苯乙烯，熔化后减少其体积以便运输。

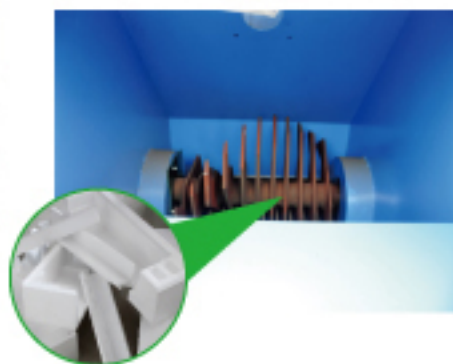

此设备可连接造粒机，无需二次加工，可直接造粒成原料。该设备是破碎、送料、熔化于一体的多功能设备；破碎能力强、连续出料、适用方便。

EPS melting recycling machine is mainly used in foaming poly acrylic, melt it to reduce the size and facilitate the transportation.

The equipment can connect pelletizer machine, produce pellets as raw material, no need further processes.

The machine combines breaking, feeding and melting to one equipment, with strong breaking ability, discharges continuously, with easy operation.

### 机器参数 DATA SHEET

型号 Model	加料口尺寸 Feed opening size (L*H) mm	处理量 Capacity (Kg/H)	压缩比 Compacted ratio	功率/马力 Power (Kw/Hp)	机器尺寸 Machine size (L*W*H) mm	重量 Weight (Kg)
JPE-50	640*350	30-50	100:1	15/20	1550*1450*1800	750
JPE-100	1000*450	60-100	100:1	22/30	1930*1610*1850	970

\* 以上参数可根据客户要求定制。The above parameters can be customized to customer's requirement.
